

The Cowan Connection

WE WISH YOU A
HAPPY HOLIDAY SEASON
AND A PROSPEROUS NEW YEAR.

Holiday Hours:

Cowan Dynamics closes at noon on December 22nd and reopens on January 2nd.

All Documents are Now Electronic

Cowan has consolidated its PDM into one platform. Filecenter give us one central location to store all our shop order and sales order related documents including client POs, material certifications, approval drawings and more. These documents can be quickly retrieved and sent to the client from within the app thereby improving our response time and efficiency.

Product Highlight

CDA Series
Diaphragm Actuator

Thrust up to 13,000 lbs
Pressure Rating up to 60 psi
Stroke up to 4.00"

Cowan's diaphragm actuator has an effective diaphragm area of up to 217 in². It is available in direct or reverse acting styles and fail-close or fail-open.

An adjusting mechanism is incorporated into the actuator design to allow for adjustment of the spring pre-compression. The CDA series has excellent repeatability, having been tested to over 400,000 cycles without loss of precision. It outputs repeatable thrust force and has a nested spring design to maintain compactness.
