

**Designed for
Performance.
Proven in our
Own Shop.**

The A2A Pneumatic Booster
keeps our systems moving.

cowan dynamics

Conventional System

- 785 lbs
- 400 gallon tank
- 30" x 30" footprint
- 20" Bore pneumatic valve actuator

A2A Booster System

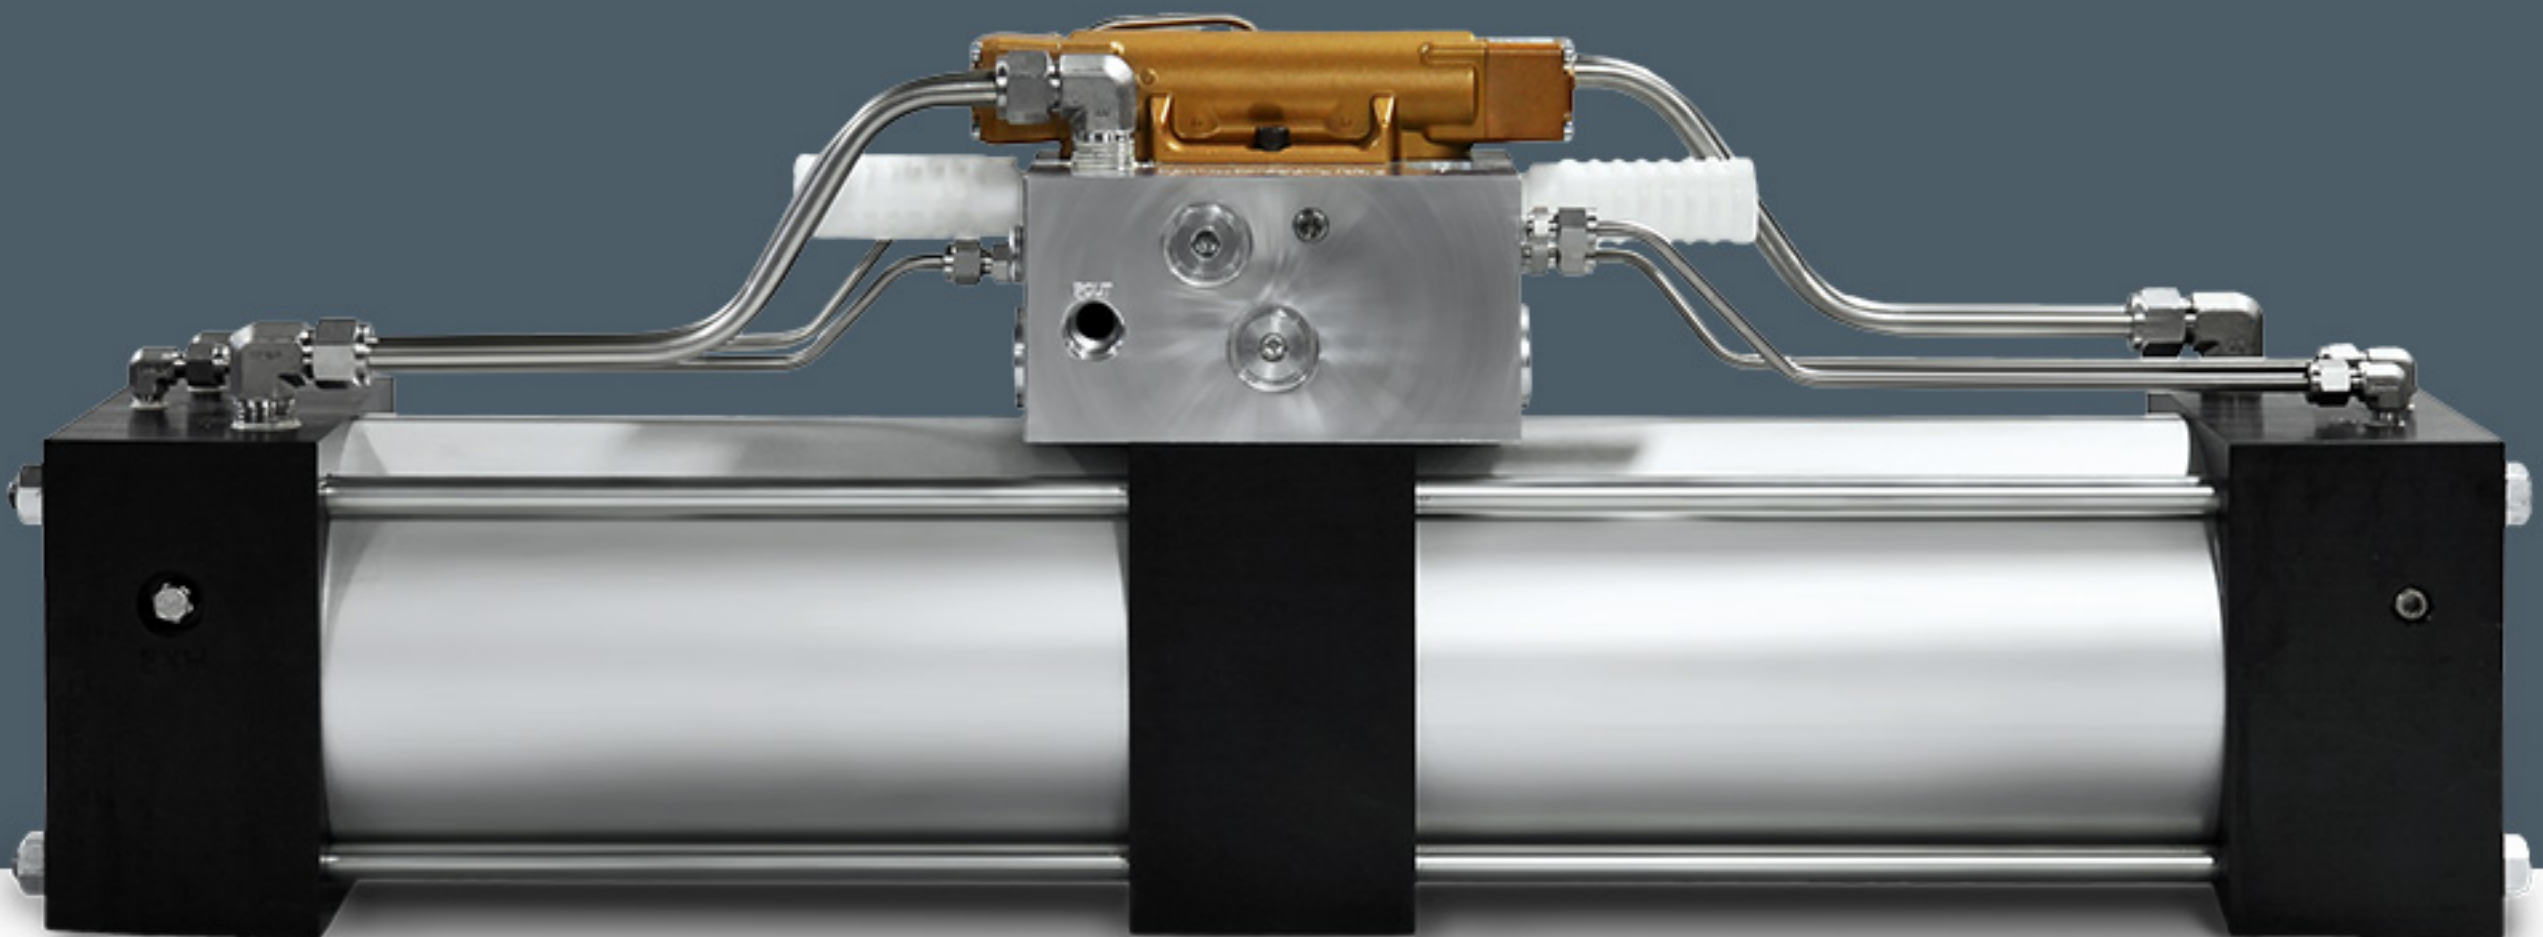

- 430 lbs
- 60 gallon tank
- 20" x 20" Footprint
- 16" Bore pneumatic valve actuator

- ***Up to 85% Smaller***
- ***Up to 45% Lighter***
- ***Up to 40% Cost Savings***

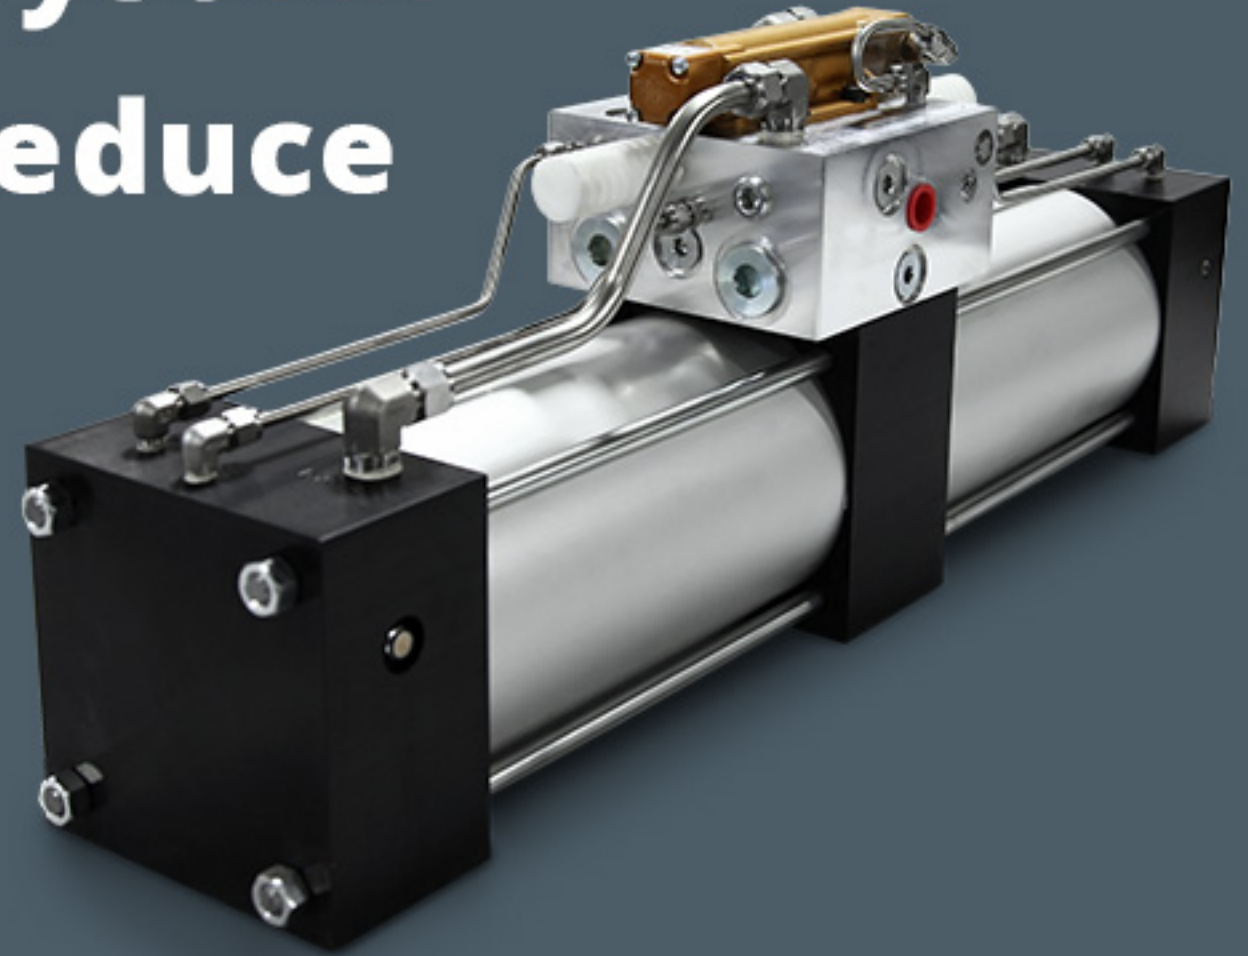

S

A²A Booster

- Up to 4:1 Boost Ratio
- Automatic Operation
- Do More With Less
- Up to 250 psi of Output Pressure

**Integrate our A2A
booster to your system
to significantly reduce
the size of your
air tank
and actuator.**
